

# Ionizer IZF

A Flexible and Cost-Efficient  
Solution Against Static Charge

## Your Benefits

- Static charge gets vanished
- Built-in sensor continuously monitors the ion balance
- Automatic adjustment for stable ion balance and less adjustment time
- Life of the electrode needles is almost twice as long due to the averaging function
- Automatic cleaning function reduce the contamination of the electrode needles
- Fast exchange of cassette housing
- Adjustable lamellae ensures a large working area
- 7 alarm functions are available
- LED from two sides visible

Say goodbye to static charge issues with our Ionizer IZF – a versatile solution that can be applied to a wide range of machines. Equipped with a built-in fan function, the Ionizer IZF produces its own air, eliminating the need for external air pressure, making it a powerful and cost-effective solution.

The movable lamella allows you to adjust the angle and target area with precision, ensuring optimal performance and results. Additionally, the Ionizer IZF can be adjusted to match the polarity of different materials, providing a customized solution for your specific needs.

Upgrade your existing machines with the Ionizer IZF and enjoy improved efficiency and reduced downtime. Contact us today to learn more about how our Ionizer IZF can benefit your operations.

We provide all the necessary components in a single package, and our installation instructions are designed to make the process easy for your technicians. With just a few simple steps, your technician can install the mechanical components and get your system up and running quickly.

We offer the option to set up the interface with our dedicated service and software department.

### System consists of

- Ionizer IZF21 or IZF31
- General engineering and software integration
- Electronic and mechanical incidentals
- Documentation and Installation instructions

### Available for machines

We offer the ionizer solution for several machine types, such as:

- Coremaster (IZF31)
- Flexmaster (IZF31)
- MiniMaster (IZF21)

If you own one of these machines, our ionizer solution can help you achieve optimal performance and efficiency. Contact us today to learn more about our ionizer solution and how it can benefit your specific machine.
